

Apocalyptic Nuclear Hell

Barbatos

I puke fire on the feeble flock of god
The mind fucked poser holocaust is here

We are ready to annihilate
Torment, destroy and desecrate
Everything that is sacred
All the shit called holy

Gods kingdom in ruins
Nuclear fucking Holocaust
Heed the call from Hades
Unleash the demon seed

Kerberos
Feast upon the sheep
Mendes
Now consume the weak

We are ready to annihilate
Torment, destroy and desecrate
Everything that is sacred
All the shit called holy

Your god gave you hope
Well he is long since dead
Now the Devils rules
His demons must be feed

Red Holocaust clouds
The ritual is done
Baphomet in triumph
Forever heaven gone

We are ready to annihilate
Torment, destroy and desecrate
Everything that is sacred
All the shit called holy
