

# Drink Till Death

Barbatos

Alright this night you gonna die

A thrashing rage  
In front the stage  
Drunk maniacs curse  
We are getting worse

Puke the god old beer  
Teach the kids to fear  
What the Devil say  
You will fucking obey

Mosh your head  
And posers dead  
Total violent night  
Metals fuckin might

Drink till death  
Smash your head  
We want you all  
So fucking dead

Cut your studded arms  
Denim booze and scars  
Beat the fucking bitch  
That evil horny witch

Drink more than you can handle  
Snort shit like never before  
There is no time to waste  
When death is at the door

Mosh your head  
And posers dead  
Total violent night  
Metals fuckin might
