

Change

Barcelona

Goodbye for the last time
As if I haven't practiced
As if I'm surprised

We try from the top line
I'm lost without you near me
And lost in my mind

But I won't know until I go
To be with you one day
One day

Change is coming on faster than I thought it would
I'm losing all my faith
You woke me up before you left
And I won't forget that
Change is coming on faster than I wanted

Feels like I am dreaming
I run away from monsters
But they're scared of me

My arms and legs are all screaming
It's hard enough to wake
It's hard to stay asleep

But I won't know until I go
To be with you one day
One day

Change is coming on faster than I thought it would
I'm losing all my faith
You woke me up before you left
And I won't forget that
Change is coming on faster than I wanted

Running after you I take your hand
But you fall away
It's too late
I'm too late

But I won't know until I go
To be with you one day
One day

Change is coming on faster than I thought it would
I'm losing all my faith
You woke me up before you left
And I won't forget that
Change is coming on faster than I wanted
