

# Cure

Barcelona

Will you stay with me tonight?  
You could be my cure  
You're afraid  
I'm a bad guy  
All I do is hurt

So take away all my sin  
Give me a sweet prayer on my lips  
And take it off  
Take me in  
I wanna make love to you

Put your hands on my chest  
I'll make you feel like you've been blessed  
Put my words to the test  
I wanna make love to you

Will you stay?  
I hate to fight  
But it makes me want you more  
Please, don't play  
With my heart tonight  
I get a little insecure

So take away all my sin  
Give me a sweet prayer on my lips  
And take it off  
Take me in  
I wanna make love to you

Put your hands on my chest  
I'll make you feel like you've been blessed  
Put my words to the test  
I wanna make love to you

Oh this I swear  
I promise to myself  
I'll never let you go  
Give you my heart and soul

Oh this I swear  
I promise to myself  
I'll never let you go  
Give you my heart and soul

So take away all my sin  
Give me a sweet prayer on my lips  
Take it off  
Take me in  
I wanna make love to you

Put your hands  
On my chest  
I'll make you feel like you've been blessed  
Put my words to the test  
I wanna make love

To you
