

## Evermore

Barcelona

I ran my heart around the town  
I ran it out of breath  
My mind got separated from  
This beating in my chest  
I look for miles and saw you here  
Wrapped around in pain  
I see i've got a question now  
That haunts me every day

Can we keep this evermore?  
I came here to find out  
Give me a sign now  
I found you screaming evermore  
I see a light now  
I found a way out

A civil boy that you conduct  
That comes to life in me  
And what am i gonna lose  
And what do i stand to gain?  
Honestly my sense is gone  
It left me in the night  
This heaven where you hold me  
But what the hell's the point?

Can we keep this evermore?  
I came here to find out  
Give me a sign now  
I found you screaming evermore  
I see a light now  
I found a way out

Girl...  
I need...  
Don't give up...  
Don't fall asleep...  
I found peace...  
In every cry and every scream

I found you screaming evermore  
It's still in light now  
I found a way out  
Can we keep this evermore?  
I came here to find out  
Give me a sign now

I heard you keep on coming back for more  
I see the light now  
I found the way out
