

Last Night

Barcelona

Nervous, I get nervous
I wanna tell that we need to give up
Higher, I need to get higher
Gotta push it down and wait till I'm numb

I can't wait what we grow old
I can't give what you withhold
I'm a father; I'm so cold

What you said last night
It's driving me out of my mind
All of your fears will come true
I'll wake up and I'll leave you
So tell me one more time
I will be in your bed tonight
All of your fears will come true
I can't say that I love you
But we'll still get by
We'll still get by

Crazy, I feel crazy
You got me crawling off the wall of this house
Lately you taste like candy
I keep telling my brain to cut you out

I can't wait what we grow old
I can't give what you withhold
I'm a father; I'm so cold

What you said last night
It's driving me out of my mind
All of your fears will come true
I'll wake up and I'll leave you
So tell me one more time
I will be in your bed tonight
All of your fears will come true
I can't say that I love you
But we'll still get by
We'll still get by

Listen to the wall in my head
Let me go straight to your bed
I don't really want to leave you
Yeah, I know it's selfish
Look at all the ways I keep you
From loving me the way you need to
I don't really want to leave you
I don't really want to stay

What you said last night
It's driving me out of my mind
All of your fears will come true
I'll wake up and I'll leave you
So tell me one more time
I will be in your bed tonight
All of your fears will come true
I can't say that I love you

But we'll still get by
We'll still get by
