

Lose Control

Barcelona

It's been a long time coming
You gotta leave me now
Let me help you pack your things

It's been too much running
And breaking down
Now we're hanging by a string

In a carpool of your turnarounds
Did you hear my heart? Did it make a sound?
I need you here, I need you here
Why don't you stay?
And one last look in the long embrace
You took my hand and you touched my face
You held me near you; you held me near you
And I heard you say

If you love me, let me go
I need time and I need to go
Don't give up, just lose control
If you love me, let me go
I'll come back, but you need to know
Don't give up, just lose control

Ever since you left me
I've been living in the city
I try to sleep with open eyes...yeah
I fell asleep in a hurry
I need to fall into a sweet dream
But I found myself outside

In a carpool of your turnarounds
Did you hear my heart? Did it make a sound?
I need you here, I need you here
Why don't you stay?
And one last look in the long embrace
You took my hand and you touched my face
You held me near you; you held me near you
And I heard you say

If you love me, let me go
I need time and I need to go
Don't give up, just lose control
If you love me, let me go
I'll come back, but you need to know
Don't give up, just lose control

It might harder than we thought
Might be crawling in the dark
Close your eyes and let your heart be guide you on
I gotta a burning deep inside
And it's burning me alive
Let me go so I can find my own way

If you love me, let me go
I need time and I need to go
Don't give up, just lose control

If you love me, let me go
I'll come back, but you need to know
Don't give up, just lose control
