

## On / Off

Barcelona

Fill it up to the top now  
It's not enough till it spills down  
I can hardly breathe and I won't tell you how to save me

Baby girl listen to the sound  
Close your eyes, feel it in the ground  
You can hardly see and I won't tell you how to find me

What do you think would happen if we make a plan?  
Anything to stop this turning on and off again  
I wanna love you but I don't wanna force your hand  
We're like a light bulb turning on and off again

You run away tearing up the tone  
Breaking boys, taking all their crows  
I went to the loft but they won't tell me where to find you

Fill it up to the top now  
If fits enough, let me pass out  
I'm about to die when I see you by my side and you save me

What do you think would happen if we make a plan?  
Anything to stop this turning on and off again  
I wanna love you but I don't wanna force your hand  
We're like a light bulb turning on and off again

If you need me here  
Baby show me, make it clear  
I don't feel that what you say it's true  
But if you need more time  
I can't hold you for tonight  
I will be that man, I can be that man for you

What do you think would happen if we make a plan?  
Anything to stop this turning on and off again  
I wanna love you but I don't wanna force your hand  
We're like a light bulb turning on and off again
