

Strange Way

Barcelona

We're in a strange place
We got a strange way
Did we make the choice
To stay the same
It's like another language
It's like another country
What you're showin' me is backwards
I'm crashin' through it, find me

If I don't try, we'll fade away
If I don't try, you'll leave today
So take your time, listen to me, baby
Hold it, breathe out
Please won't you try, look at my face
I won't lie, I want you to stay
So take your time, listen to me, baby
Hold it, breathe out

When you talk to me
I can feel your words
In the middle of a storm cloud
That's where you let your light burst
But baby I'm so cold
And it's gettin' late
Even if we get nowhere
I promise you that I'll remain

If I don't try, we'll fade away
If I don't try, you'll leave today
So take your time, listen to me, baby
Hold it, breathe out
Please won't you try, look at my face
I won't lie, I want you to stay
So take your time, listen to me, baby
Hold it, breathe out
Hold it, breathe out
Hold it, breathe out

We are the strange way
We are the strange way
This is not what you wanted
This is love
(We are the strange way)
Just like you I wanna know
That this is love

If I don't try, we'll fade away
If I don't try, you'll leave today
So take your time, listen to me, baby
Hold it, breathe out
Please won't you try, look at my face
I won't lie, I want you to stay
So take your time, listen to me, baby
Hold it, breathe out
Hold it, breathe out
Hold it, breathe out
