

## Strange Way

Barcelona

We're in a strange place  
We got a strange way  
Did we make the choice  
To stay the same  
It's like another language  
It's like another country  
What you're showin' me is backwards  
I'm crashin' through it, find me

If I don't try, we'll fade away  
If I don't try, you'll leave today  
So take your time, listen to me, baby  
Hold it, breathe out  
Please won't you try, look at my face  
I won't lie, I want you to stay  
So take your time, listen to me, baby  
Hold it, breathe out

When you talk to me  
I can feel your words  
In the middle of a storm cloud  
That's where you let your light burst  
But baby I'm so cold  
And it's gettin' late  
Even if we get nowhere  
I promise you that I'll remain

If I don't try, we'll fade away  
If I don't try, you'll leave today  
So take your time, listen to me, baby  
Hold it, breathe out  
Please won't you try, look at my face  
I won't lie, I want you to stay  
So take your time, listen to me, baby  
Hold it, breathe out  
Hold it, breathe out  
Hold it, breathe out

We are the strange way  
We are the strange way  
This is not what you wanted  
This is love  
(We are the strange way)  
Just like you I wanna know  
That this is love

If I don't try, we'll fade away  
If I don't try, you'll leave today  
So take your time, listen to me, baby  
Hold it, breathe out  
Please won't you try, look at my face  
I won't lie, I want you to stay  
So take your time, listen to me, baby  
Hold it, breathe out  
Hold it, breathe out  
Hold it, breathe out
