

Nova Lepidoptera

Barclay James Harvest

Silver, drifting on high
Deep range star lords
Rebel land of black night
Float by your stars.

Mistress of fear see me towards always
Nova bright shine far beyond all time.

Beings of the fourth kind
Night time wanderers
Ring world timeless in ice
Deep inside gods

Mistress of fear see me towards always
Secret mood of corridors in hyberspace
Nova bright shine far beyond the barriers of time
Take me through the laser beams
The moving sands of Mars to see
