

Look in my eyes  
See the light of the universe  
I'm man, born of God  
Not a clown in disguise

My skin is bronze  
My hair is gold  
The power within me lights the way  
To wealth and fame  
All in my name, the final goal

Shout it, shout it, shout it out loud  
Sing it, sing it, sing to the crowd  
Call out, call out, call out from afar  
Make them, make them, make you superstar

Look in my face  
See the light  
Of a thousand stars shine bright  
In the night  
As I step  
From the stage

Don't burn your hands  
On my skin  
You can't touch what's deep within  
That's my soul  
Reaching my final goal

Shout it, shout it, shout it out loud  
Sing it, sing it, sing to the crowd  
Call out, call out, call out from afar  
Make them, make them, make you superstar
