Taking Some Time On

Barclay James Harvest

Let's come on and get together
Like the sky gets to the sea
Just taking some time on
Let's come on and make it better
Let's make everybody see
Just taking some time on
For those who feel inclined
To talk about the hideen feelings of their mind
Let's come on and get together
Let's come on and get together
Like the sky with the sea
Like the sky with the sea
Just taking some time on

Let's come on and tell the story

Of the way it used to be

Just taking some time on

Let's come on and sing a song now

Of the days when we were free

Just taking some time on

For those who feel inclined

To talk about the hideen feelings of their mind

Let's come on and get together

Let's come on and get together

Like the sky with the sea

Like the sky with the sea

Just taking some time on

Let's come on the feeling's right now
We want everyone to be
Just taking some time on
Let's come on and get together
Like the sky gets to the sea
Just taking some time on
For those who feel inclined
To talk about the hideen feelings of their mind
Let's come on and get together
Let's come on and get together
Like the sky with the sea
Like the sky with the sea
Just taking some time on
