

# End The War

Barcode

Keeping it clean is life to me  
Independence's what I plead  
Abstention's my philosophy  
Straight edge is my destiny

Cherish lifetime insanity  
Lose control and let it be  
Bad habits set me free  
Fucked for real feels good to me

No meat, no drugs, no alcohol  
Want it all and I want more  
No screwing around for affection  
Plain pollution to the core

It's my life and I'm the boss  
Life is hard and then you die  
'tag my hands with a big black cross  
Risking it all is worth the try

Let's go  
Two of a kind, for the love of the scene  
Won't blame you if you won't blame me  
It's our lives, we can do what we want

United and strong, one hardcore front  
One for all  
Same bawl  
End the war  
For hardcore
