

For What it's Worth

Barcode

Don't want your interest
Don't need your worries, too
For what it's worth - no less
Giving up on everything
I'm leaving it all behind
The crucial sacrifice

Bypass
Recast
Go kiss my fucking ass
Last rites - the final blast

Unstable hallowed the restless for evermore
Withdrawn immunity
These unreliable bonds
This lust for lowest low
This need for no response
Let it go

Back off - my life - my show
Out of sight - out of mind - let go

Bypass
Recast
Go kiss my fucking Ass
Witness the final blast
