

Down

Bardot

Down, down, down, down [repeat]
Look what you're doing to me
'Cause I don't want you to leave
Wish I could stop you somehow
But you're out of plain now

I want you please to come back to me
(Back to me)
I need you with me to make it
(I need you with me to)
If this is how it's meant to be, boy
Then I just can't take it

I'm so down
When I'm not around you
(When I'm not around you, baby)
I'm so down I feel so blue
When I can't see you
(When I can't see you)

I've got this feeling in me
And I just can't seem to breathe
As I look up in the sky
You never say goodbye

I want you please to come back to me
(Back to me)
I need you with me to make it
(I need you with me to)
If this is how it's meant to be, boy
Then I just can't take it

I'm so down
When I'm not around you
(When I'm not around you, baby)
I'm so down I feel so blue
When I can't see you
(When I can't see you)

Why do you hurt me so much, boy?
You make me feel down
But I'm hurting and hoping and praying
That you'll still be around

I'm so down
When I'm not around you
(When I'm not around you, baby)
I'm so down I feel so blue
When I can't see you
(When I can't see you)
