You Got Me Feeling

Running, can't see the light Yearning, for love tonight A moment, is all I need Don't you try and take it from me

Cause I know that you and I were meant to be Don't you know that we should be in love and free It just don't seem right won't you explain to me The reasons why you cannot feel the same way when you look at m e

You got me feelin' Something I cannot hide A love I can't deny, tell me why You got me feelin' Don't wanna let it go, Can't stop this feelin'

I'm taken by what you do My heart years, for me and you Captured, by your charm But you keep taking it from me

Cause I know that you and I were meant to be Don't you know that we should be in love and free It just don't seem right won't you explain it to me The reasons why you cannot feel the same way when you look at m e

You got me feelin' Something I cannot hide A love I can't deny, tell me why You got me feelin' Don't wanna let it go, Can't stop this feelin'
