

## Big Bang Theory Theme

Barenaked Ladies

Our whole universe was in a hot dense state,  
Then nearly fourteen billion years ago expansion started. Wait.

..

The Earth began to cool,  
The autotrophs began to drool,  
Neanderthals developed tools,  
We built a wall (we built the pyramids),  
Math, science, history, unraveling the mystery,  
That all started with the big bang (Bang)!

"Since the dawn of man" is really not that long,  
As every galaxy was formed in less time than it takes to sing t  
his song.

A fraction of a second and the elements were made.  
The bipeds stood up straight,  
The dinosaurs all met their fate,  
They tried to leap but they were late  
And they all died (they froze their asses off)  
The oceans and Pangaea  
See ya wouldn't wanna be ya  
Set in motion by the same big bang!

It all started with the big BANG!

It's expanding ever outward but one day  
It will pause and start to go the other way.  
Collapsing ever inward, we won't be here, it won't be heard  
Our best and brightest figure that it'll make an even bigger ba  
ng!

Australopithecus would really have been sick of us  
Debating how we're here, they're catching deer (we're catching  
viruses)  
Religion or astronomy (Encarta Deuteronomy)  
It all started with the big bang!

Music and mythology, Einstein and astrology  
It all started with the big bang!  
It all started with the big... BANG!
