## **Get Back Up**

## **Barenaked Ladies**

I'm a little bit worse for wear Got a little bit more grey hair I'm not gonna be the next big thing But I'm getting fitted for a new brass ring I've been dunked, I've been kicked around Now I'm ready for the big rebound I know you can't win them all But I'm swingin' like Pitt gettin' hits in Moneyball

Get back, get back up You gotta get back, get back up You got a whole stadium on their feet It's not about a victory or a defeat See you gotta get back, get back up You gotta get back, get back up

Not everything is sink or swim You can't fly if the air's too thin The best part of the ride is the free fall Better keep your arms and legs in the vehicle Standing eight and I'm on the ropes Knees givin' but I won't lose hope Not the second coming of Muhammad Ali But can I get a "WOOT" for the boxing imagery?

Get back, get back up You gotta get back, get back up You got a whole stadium on their feet It's not about a victory or a defeat See you gotta get back, get back up You gotta get back, get back up

Gotta get back, gotta get back Gotta get back, gotta get back

Get back, get back up You gotta get back, get back up You got a whole stadium on their feet It's not about a victory or a defeat See you gotta get back, get back up You gotta get back, get back up Everybody's up on their feet It's not about a victory or a defeat See you gotta get back, get back up You gotta get back, get back up

Gotta get back, gotta get back Tištěnoz www.txp.cz
