

I Love You

Barenaked Ladies

I love you
And you love me
I love you
So let's make a family tree

I like soup, and I like ice cream sandwiches too.
I like fish sticks,
but I love you.
You don't believe me, you say all I think about's myself.
Let me explain, don't walk away.

I love me
You love you
I Love me
So what are we to do?

How would you know that I love you so?
I don't say too much
Why are you blue whenever I'm in town?
I guess life was fine till I came 'round.

You've given me a start, I ain't no doctor
but just take a look at the chart for my heart
like a dart from the start I'm coming
down with something good.
It ain't no fever or flu, doctor says it had
to be someone with brown hair and blue eyes, I'm
lovesick for you I realize.

I's loves you
And youse loves me.
I's loves you
So let's make a family tree.

How did you know that I loved you so?
I don't say too much.
Why are you blue whenever I'm in town?
I guess life was fine till I came 'round.

I love you
And you love me
I love you
So let's make a family tree
