

## Serendipity

## Barenaked Ladies

So long ago, on a summer day  
I put my best shirt on  
I took you to the matinee  
With money from mowing lawns  
Money from mowing lawns

You worked down at the Dairy Queen  
We hit it off from the start  
Now there's a blizzard in between  
Frost inside a heart

If I had a good reason, I would share  
It with you  
Then the coldest season came  
Making room for something new  
Good for you  
Good for me  
Call it serendipity

Walking on coals, just trying to get through  
But summers don't last that long  
All that is left here is the truth  
Everything else is gone

Gone without a good reason for me to share  
With you  
When the coldest season came  
Making room for something new  
Good for you  
Good for me  
Call it serendipity

If I could only hit my stride  
I'll make it to the other side  
I don't wanna be roadkill  
When there's half a cup to fill  
To fill

Good for you (Call it serendipity)  
Good for me (Serendipity)  
Call it serendipity  
Call it serendipity  
Call it serendipity

Walking on coals, just trying to get through  
Now summers don't last so long  
All that is left here is the truth  
Everything else is gone
