## What A Letdown

## **Barenaked Ladies**

Even if I let this settle, it'll lead to a little fight Even when I get to meddlin' I need to remain polite I could cut across this field but it hits pretty close to home Maybe if I jiggle it a little it'll open up on its own

Oh well, what a let down Oh well, what a let down

Never has a stranger had a better taste of another town Just time for a cowboy breakfast, that's a leak and a look arou nd Looks like the land of plenty, there will be plenty there to do That might've been funny at 20, but I just turned 32

Oh well, what a let down Oh well, what a let down Oh well, what a let down Oh well, what a let down

Let down your guard Moving forward Finally four words What a let down What a let down

Even if I let this settle, it'll lead to a little fight Even when I get to meddlin' I need to remember to remain polite I could cut across this field but it hits pretty close to home Maybe if I jiggle it a little it'll open up on its own

Oh well, what a let down Oh well, what a let down Oh well, what a let down Oh well, what a let down

What a let down Oh well, what a let down Oh well, what a let down What a let down
