How long has the percolator  
How long has the percolator been on  
How long has the percolator  
How long has the percolator been on  
You better tell me now  
Or I'll go out and write a song

We awoke at sunrise  
Drank margaritas from a can  
You look better in the moonlight  
So I just turned and shook your hand  
Remember in Chicago  
All I wanted was some prize

How long has the percolator  
How long has the percolator been on  
Wanna know now don't wanna know later  
How long has the percolator been on  
You better tell me now  
Or I'll turn that percolator into a bong

I gotta give him credit  
He was my homeboy that taught me song  
I haven't talked to him for six years  
Hope he didn't turn out like his dad

(Percolator, Percolator)  
Tommy can you hear me  
Can you feel me near you  
Tommy can you see me  
Do you want me near you, come on  
Tommy can you hear me  
Can you feel me near you  
Tommy can you see me  
Do you want me near you, come on  
Tommy can you hear me  
Can you feel me near you  
Tommy can you see me  
Do you want me near you, come on
