

## Rock And Stone

Bargain Music

Don't do it georgy  
We don't wanna go to war  
All those lies flying out of your grill  
I've heard them all before  
Oh I love my country  
But I've got no love for you  
Your head is rock and stone

I remember, you know that I remember  
When I saw those towers fall  
I was the first one screaming retribution  
But I can't honestly say it wasn't a little bit of our fault  
We're so good at foreign policy aren't we

Don't do it georgy  
They don't wanna go to war  
Their trying to raise their families  
They are hungry they are poor  
Ain't you satisfied that you killed innocents  
With no terror on their minds before  
They live on rock and stone  
Earth and bone

Do you remember, tell me do you remember  
What your daddy did in panama  
Well I do  
What if some panamanians came out and killed my family  
When that shit just wasn't my fault  
Do you understand me

Don't do it georgy  
We don't wanna

Think about it, have you ever thought about it  
Ever single person that died on that day  
Well if so how can you wage a war in their name  
Against someone who was not at all to blame  
Cmon, cmon, cmon, cmon, cmon, cmon

Don't do it georgy  
I'm not gonna go to war  
Come and tell me to my face what we're really fighting for  
Five minutes with you and me all alone in a room  
I'll talk with rock and stone  
Foot and bone
