

Going Nowhere

Barren Cross

Life is short so go and try - grab all you can before you die
Is this you - you're going nowhere
Someone came and died for you - but you just want your pleasure
You - you're going nowhere

Blowin' out your wheels as you rip on by out of sight
The people stare - you perform your dare in the night
You choose your fun more than God's own son, why do you run?
You'll go insane when the devil's name runs your guns

Going
Nowhere
Fighting
Jesus Cares

You're runnin' the town, messin' around to the core
Your life in in shrails, pleasure prevails in the door
Why don't you see, new life is waiting - it's free
God's love is here and He wants to free you and me

Blowin' out your wheels as you rip on by telling why
'Cause you found that Jesus made you free
Now you see

Going
Somewhere
Heaven
You'll be there
No time
To waste
Soon we'll
See His face
