

## Time For Love

Barren Cross

Round and round I want to get it down  
And then we'll rock this town when my  
Love comes down  
Give me what I really want give me what I'm looking for  
And give me something that won't be gone  
When I walk outside that door,  
Give me something right now  
Give me what I'm dreamin' of  
Lord it's time for love  
Time for love  
Time for love  
Time for love

Round and round it really gets around  
There's power to be found, can you hear it? Its name is love  
Got to get it into my soul, need a double shot of love  
And need the kind that'll still be there when the feeling's down below  
Time is here and right now, time for what I'm dreamin' of  
Lord its time for love  
Time for love  
Time for love  
Time for love  
More than a feeling it's really love  
And it's more than I've felt before  
And it's easy to see on the day that I met my Lord  
Ain't nothin' better  
Than the kind I'm of dreamin' of, ya
