

Shadows

Barry Gibb

I live the morning and the night with nothing in between
No more a gentle kiss goodnight
I see you in my dreams
But I was watching shadows on a wall
Truly unexplained
So what can I see
The place where you were mine
Is just an empty hall
And baby all I see is you, loving me

Sometimes I think I'm somewhere else
I think I've gone insane
One chance to hold you in the night
Or see you once again
Instead of watching shadows in the night
Truly unexplained
So what can I do
I lie awake till the early dawn
I'm leaving every light on for you
I'll be here forever if it's not too late
Won't you stay
Don't you ever fade away

Baby you and I we held it all together
High as we could be
But we were chasing shadows on a wall
Truly unexplained
None of this is real

And baby all I feel is you
And baby all I feel is you

I believe in all the times when I
was all you wanted
All that I could see
But I was watching shadows on a wall
Voices in the night
Only meant for me
This is all that I could do
Following my shadows through
Or do they shadow me
