

She Says

Barry Gibb

She says she loves me
And you say you don't
And life has no meaning
If you won't

She's one in a million
A million to one
And love makes us so much stronger
We hide the sun

It's undercover
You'll discover
We have lived a lie
I never meant a thing to you
All I did was waste your time

If it hurts, don't let it
Someone loves you
You will find the way

She says she loves me
And you say you don't
And life has no meaning
If you won't

The one road to heaven
Is hell when she's gone
And love makes us so much stronger
We hide the sun

It's wrong to go on blaming someone
You don't even know
One song was all she sang to me
All her words were soft and low

If it hurts, don't let it
Someone loves you
You will find the way

She says she loves me
And you say you don't
And life has no meaning
If you won't

She's one in a million (in a million)
A million (a million) to one
And love makes us so much stronger
We hide the sun
