

Star Crossed Lovers

Barry Gibb

Star crossed lovers, waiting to begin
Don't you know something beautiful has passed you by
Star crossed lovers
Too much in love to say goodbye

Star crossed lovers, waiting to be heard
No we can't be together if we never try
Star crossed lovers,
You know I hate to see you cry

I used to hang around, waiting on the chance
You could be everything to me
But you just turn away, leading me the dance
I'd be the lonely one inside the sun

Star crossed lovers written on the wind
Don't you know something beautiful has passed you by
Star crossed lovers,
Too much in love to say goodbye

I used to be the judge
I know you were right, we came to feel as lovers do
I knew just looking in, waiting for the smile
I'd be the lonely one, inside the sun

Star crossed lovers, never to begin
Don't you know something beautiful has passed you by
Star crossed lovers, too much in love to say goodbye
Star crossed lovers, you know I hate to see you cry
Star crossed lovers, too much in love to say goodbye
