

A Little Travelling Music, Please

Barry Manilow

On the road so long and lonely
Can't believe I'm headed home to stay
God I miss my one and only
A little traveling music please
Seems we're always separating
Still she doesn't let me lose my way

Home is anywhere she's waiting
A little traveling music please
I may forget how much I care
But once I've left her laughter

Two and three days after
I'm aware how much I miss her there
This time I'll stay home forever
Hold her close and turn the world away
Even if it's not forever
It it'll keep me from unraveling
A little traveling music please

Two and three days after
I'm aware how much I miss her there
This time I'll stay home forever
Hold her close and turn the world away
Even if it's not forever
She's going to keep me from unraveling
A little traveling music please
A little traveling music please
