

Black and Blue

Barry Manilow

There are no stars tonight,
There are no words to say
I feel my soul losing you

Where did the good times go,
Baby what can we do
Color our love

Black and blue, Black and blue

When our hearts were young,
Clinging to each other
Moonlight used to glow

When our hearts were young,
Then there was no other

Why'd we let it go
Down on the avenue,
You can forget your name

Paint pretty pictures,
False and true

Picture what we've become

Running is all we do
Color our love

Black and blue, Black and blue

Looks like a storm tonight

Look like a storm tonight

A storm is overdue

A storm is overdue

Color our love

Color our love

Black and blue, Black and blue, Oh
