

Bring On Tomorrow

Barry Manilow

Sleep baby, sleep
Lose yesterday's blues
When you're ready for morning
Have I got news
Our ship's in the harbor
The street's turning gold
Whatever you're dreaming, it's no longer on hold

Dream baby, dream
While you were asleep
I had mountains to climb and a promise to keep
Now home is the hunter and holding the prize
I'm waiting tell you when you open your eyes

Bring on tomorrow for me and for you
We hung on through dark hours, dawn's overdue
Bring on tomorrow and show me the sun
We'll live it together 'cause you are the one

Smile baby, smile
Through canyon's of night
But you'll really be smiling by morning's light
They told us we're crazy
They promised I'd lose
Forgive and forget them
They're yesterday's news

Bring on tomorrow for me and for you
We hung on through dark hours, dawn's overdue
Bring on tomorrow and show me the sun
We'll live it together 'cause you are the one

Without you it's nothing
Why else would I climb?
Together forever, hearts beating in time
Oh...

Bring on tomorrow for me and for you
We hung on through dark hours, dawn's overdue
Bring on tomorrow and show me the sun
We'll live it together 'cause you are the one
