

I Just Want to Be the One in Your Life

Barry Manilow

Some people shoot for the stars
Dream upon dream
They long to go far

Chasing their rainbow so high
Wish upon wish
They'll reach for the sky

But I got one little dream
And baby, that's all I want
Girl it's up to you
You can make my dreams come true

I just wanna be the one in your life
For ever, for always
I just wanna be the one in your life
For ever, for always

I don't need cheers from the crowd
To make me feel big
To make me feel proud

Darlin' just a little touch of your hand
Is all that I need
To feel like a man

And I keep hoping each day
I won't dream my life away
Girl, you hold the key
To make my dream a reality

I just wanna be the one in your life
For ever, for always
I just wanna be the one in your life
For ever, for always

I just wanna be the one in your life
For ever, for always
I just wanna be the one in your life
For ever, for always
