

I've Never Been in Love Before

Barry Manilow

Well I've neva been so low on love
& I know I neva hurt so bad
I neva tried so hard just to see it fall apart
Just to lose the sweetest love I eva had

Well I've neva been so low on love
& I know I'll neva be the same
I know you meant to stay so if I drove you away
Oh I know that I'm the only one to blame

They say that every day, should make me stronger
& one day I won't think of you at all
But every day you're gone the days get longer
& all I do is wait for you to call

Well I've neva been so low on love
& I know that as the years go by
I'll still be lovin' you
When I'm holding someone new
& when I think about the tears
You made me cry, I know you neva really cared enough
& I've neva been so low on love
