

# In This World

Barry Manilow

How have I found you?  
How in the world?  
Now that I've found you  
You are my world  
In these times that keep us guessing  
You're my answer and my blessing  
Pretty damn amazing, given  
This peculiar world we live in

In this world  
That's lost all its reason  
At last there's a reason  
For hope in my heart  
In this world  
Unsure of its future  
So sure of you  
I say, let the future start!  
In this world  
That's yearning for someone  
To answer the call  
From out of the blue  
In this world  
I prayed there would come one  
Magnificent someone  
Someone like you

In this world  
That's lost all its reason  
At last there's a reason  
For hope in our hearts  
In this world unsure of its future  
Somehow with you  
I'm sure where the future starts  
In this world  
That's yearning for someone  
To answer the call  
From out of the blue  
In this world  
I prayed there would come one  
Magnificent someone  
Someone like you
