

It Amazes Me

Barry Manilow

My height - just average
My weight - just average
And my iq is like you'd estimate, just average
But evidently she does not agree
Consequently, if I seem at sea
It amazes me, it simply amazes
What she sees in me
Dazzles me, dazes me
That I've learned to clip my wings
And soften my ways
These are ordinary things
Unworthy of praise
Yet she praises me
Just knowin' I would try for her
When so many would
If they could, die for her
I'm the one who's worldly-wise
And nothin' much phases me
But to see me in her eyes
It just amazes me
