

# Now It's For Real

Barry Manilow

Hard to believe  
Only a day  
And fifteen years of hard times  
Flyin' away

All those dead ends  
Bills comin' due  
Then one door opens  
And I walk through  
Why should it amaze me  
I always knew

Now it's for real  
Here and today  
Forget about dreamin'  
It's real all the way  
The world's made to order  
Here's how it feels  
Mine and I'm movin' it  
Now it's for real

All the way up  
I'm gonna climb  
Been waitin' forever  
And here's my time

Was hungry for years  
Eyes on the goal  
Now comes the payoff  
I'm on a roll  
And I'm gonna own this  
Body and soul

Now it's for real  
Here and today  
Forget about dreamin'  
It's real all the way  
The world's made to order  
Here's how it feels  
Mine and I'm movin' it  
Now it's for real

Letdown B gone  
Runaround B gone  
First time in my life  
My timing's dead on!

Now it's for real  
Here and today  
Forget about dreamin'  
It's real all the way  
The world's made to order  
Here's how it feels  
Mine and I'm movin' it  
Now it's for real
