

On the Roof

Barry Manilow

On the roof
You and I
Underneath the sky

After a day of insanity
Where everybody says that I am wrong
With the sun goin' down
And the moon comin' up
I know a place where I belong
Just follow me

On the roof
The world is ours
Underneath the stars

Hey baby isn't this paradise?
This is the place we can be free
Up in the sky
And over the street
The only place I ever wanna' be
Just me and you

On the roof
Just you and I
Underneath the sky

This is where we can be who
We were destined and always meant to be
You and me

Ooh we oooh

On the roof
You and I
Underneath the sky
