

# Turn The Radio Up

Barry Manilow

C'mon everybody open  
Up your windows  
Turn on the music  
Turn on the music

When I feel that this old world  
Is just too hard to bear  
People comin' at me left and right  
Day and night  
Here's the thing I do

Turn the radio up  
Hear the melody  
Turn reality down  
There's too much talk about blues  
Too much of the time  
Turn the radio up  
Hear the harmony  
Turn the negative down  
Turn the radio up  
Everything will be found

Worryin' don't do no good  
So throw your cares away  
Come on people life's too  
Short to stay  
Hey hey  
Everybody now

Turn the radio up  
Hear the melody  
Play it all over town  
There's too much talk about blues  
Turn the bulletins down  
Turn the radio up  
Hear the harmony  
Don't 'cha be so profound  
Turn the radio up  
It'll turn you around

Don't give in  
No matter what they say  
Out with the negative  
You find the positive way  
Hey, hey, hey

Turn the radio up  
Up with harmony  
Pandemonium down  
There's too much talk about blues  
All over this town  
Hey, hey, hey

Turn the radio up  
Hear the melody  
Don't you be so profound  
Turn the radio up

It'll turn you around

Turn the radio up

Turn the radio up

Turn the radio up
