

I Want You

Barry White

I want you!
So nice, and you're so right
I want you
So nice, and you're so right
I want you

Don't believe superstition
I only deal with the facts
(I want you)
Determination will keep our situation
So please baby
Don't hold back
(I want you)
It's no illusion, love is our solution
Make your money on that
(I want you)
Just let go, and history will know
That we just can't lose with that

You're above every feeling in my heart
I want you!
You're so nice, and it's so right
Lucky, you're lucky
Lucky us, yeah
I want you
You're so nice, and it's so right
Lucky, you're lucky
Lucky us, yeah

Love is what you make it
It's all up to us
If I misuse you, I know I'm gonna lose you
There ain't no doubts or 'but's
I want you
Satisfaction will always make reaction
Heads turn every time
I want you

You're above every feeling in my heart
I want you
You're so nice, and it's so right
Lucky, you're lucky
Lucky us
I want you
You're so nice, and it's so right
Lucky, you're lucky
Lucky us

(I want you
You're so nice, and it's so right
I want you
You're so nice, and it's so right
I want you
You're so nice, and it's so right)

I want you
You're so nice, and it's so right

Lucky, you're lucky
Lucky us
I want you
You're so nice, and it's so right
Lucky, you're lucky
Lucky us
I want you
You're so nice, and it's so right
Lucky, you're lucky
(Lucky us)
I want you
(You're so nice, and it's so right)
Lucky, you're lucky, lucky us yeah
I want you
You're so nice, and it's so right
(Lucky us)
(I want you
You're so nice, and it's so right
I want you)
