

It's Ecstasy When You Lay Down Next to Me

Barry White

When we met, it wasn't quite clear to me
What you had in store was there for only me
Silly, you know you took me by surprise
Then I turned and looked, I saw that message in your eye

There you were, I fell on the floor
The way you move girl, only made me want you more
I did not know you had me hypnotized
There's a movement of your body dancin' in my eyes

I know I had to hold you and make you mine
Don't want to control you, just to have a good time
In ecstasy when you're layin' down next to me
Oh no, no, ecstasy yeah, when you're layin' down next to me

I find it hard for me to concentrate
If I don't make my move girl, it might be too late
I've got to make sure you don't get away
After all you done girl, to make me wanna stay

All my life I've been searchin' for a star
Now my search is over and here we are
Livin' in ecstasy yeah, when you lay down next to me, yeah
Here in ecstasy when you're layin' down next to me

I wanna hold you and make you mine
Don't want to control you, just to have a good time
Livin' in ecstasy, well when you're layin' down next to me
Ooh ooh wee, ecstasy

Ecstasy when you are here with me, well
Girl it's ecstasy when you are here with me, uh huh
And it's ecstasy when you are here with me, yeah
Oh it's ecstasy, Lord knows when you are next to me, yeah
