

# The Right Night

Barry White

When you want to impress  
(somebody)  
And trying to catch  
(somebody)  
Remember the old school  
And don't forget the old rule  
Haste makes waste  
And you don't want to worry  
Keep this in mind  
All things in time

And all once you're there next to you  
And you're burning with desire

Look her right into her eyes and tell her  
Baby, I need your fire

The lady's got a way of knowing  
If you really mean it

One thing more  
You've got to make sure that  
It's the right night  
And moonlight  
(loving is better with love everytime)

The right night  
With the starlit sky  
(it just makes it better when two are together)

Now you want her so bad  
She's like no one you've had  
That love is the passion  
(it's causing that reaction)

Show her tenderness  
Be gentle when you do it  
You won't regret it  
And she won't forget

And all once you're laying in your arms  
Just before you start to do it

Remember it's not about what you've got, my friend  
But how you use it

The lady's got a feel for what's real, and don't you forget it

One thing more  
You've got to make sure  
It's the right night  
And moonlight  
(loving is better with love everytime)

The right night  
By the ocean side

The right night  
And moonlight  
(nothing works better when two are together)

Well  
Nothing gone better?  
Nothing works better  
When the two are together

To the guys worldwide  
All things in time

You just got to make sure  
That the time is right

Remember guys  
The lady knows  
Oh yes

You've got to make sure  
It's the right night  
And moonlight  
(loving is better with love everytime)

The right  
With candle-light  
(nothing works better when two are together)
