## You're My Baby

## **Barry White**

Sit down, right here sit down. I wanna talk to you There's nothing wrong I, I'm not upset It's nothing like that I just got to talk to you

You see I got a problem A real serious problem I miss girl Oh baby I miss you

And the funny thing about it is We're not apart and We are together I love you and you love me And we are happy together but

Sometimes when you're not here And we aren't together I, I, I just get so so hung up mentally and spirtually too I don't know if I going or comming and I know that I'm, I'm a man and I feel just like you feel

To love someone as much as I love you To need and to want someone As much as I want you Sometimes it, sometimes it gets next to me baby That's just the way it is

Is such a glory to be this way I guess It's just when you're not here I miss you baby Girl I miss

Your on my mind Girl I'm crazy Your loves the type Just my kind of crazy

My sadness is gone When your appear When you're here Cuz my baby You're my baby

And I do believe that I'm mad about you Don't ever leave I just can't live without you Girl you're my life My world and dreams My joy and laughter My everything

You're my baby You're my baby

Funny as it seems I live in a dream I dream of you And and always together Loving forever And breaking up breaking up never You're my baby You're my baby Funny as it sounds I need you around As long as I live I'll be you're with me For all eternity Always always You're my baby My my baby Ohhh yeah You're My baby My my baby Yeah yeah You're my baby Yeah yeah Ohh yeah Ohh yeah I'm glad to know that That You understand And I'm glad the love That you feel is the same way too The greastest thing I ever did in My life is loving you My my baby My my baby Ohh yeah yeah Ohhh yeah I'm loving you I'll be loving you baby Always and always and always and always
