

# You're the Only One for Me

Barry White

You're that face, you're that smile, you're that once in awhile  
You're the only one (the only one for me)  
Your eyes, your hair, I would know you anywhere  
You're the only one for me (the only one for me)  
You are like no one else, in a class by yourself  
You're the only one (the only one for me)  
I can feel it in my heart, even though we're far apart  
You're the only one (the only one)

You're my make believe, yeah  
You're my wildest dreams come true  
You're my fantasies  
I never thought I'd find you  
The elements are right  
It's gonna take us forever and ever  
So let's start tonight  
I just want to be with you

Your eyes, your hair, I would know you anywhere  
You're the only one (the only one for me)  
I can feel in my heart, even though we're far apart  
You're the only one for me (the only one for me)  
And you're like no one else, in a class by yourself  
You're the only one (the only one for me)  
You're that face, you're that smile, you're that once in awhile  
You're the only one (the only one)

We'll take the stars, yeah  
And caress the heavens  
Passions of love  
We're gonna feel it together  
The elements are right  
It's gonna take us forever  
So, let's start tonight  
I just want to be with you

You are like no one else, in a class by yourself  
You're the only one (the only one)  
Your eyes, your hair, I would know you anywhere  
You're the only one for me (the only one for me)  
You're that face, you're that smile, you're that once in awhile  
You're the only one (the only one)  
I can feel in my heart, even though we're far apart  
You're the only one (the only one)

I just want to be with you

You're that face, you're that smile, you're that once in awhile  
You're the only one for me  
Your eyes, your hair, I would know you anywhere  
You're the only one for me  
You are like no one else, in a class by yourself  
You're the only one (the only one)

[Chorus until end]
