

# You See the Trouble with Me

Barry White

I'm like a blind man who lost his way  
I can't see nothin'  
I'm like a deaf man who can't relay  
Yeah, I can't hear nothin'

You see the trouble with me  
I can't do nothin' without my baby  
And as plain as can be  
It's gonna drive me crazy

I walk the lonely streets late at night  
Cold and lonely  
Everything I do is wrong, never right  
I'm lonely for her only

See the trouble with me  
I can't do nothin' without my baby  
And as plain as can be  
It's gonna drive me crazy

See the trouble with me  
I can't do nothin' without my baby  
And as plain as can be, what do I do?  
It's gonna drive me crazy

See the trouble with me  
I can't do nothin' without my baby  
And as plain as can be, what do I do?  
It's gonna drive me crazy

See the trouble with me  
I can't do nothin' without my baby  
And as plain as can be  
It's gonna drive me crazy
