

Complicated

Bars and Melody

She got class,
She got style,
No more perfection than a smile,
You need to know girl,
You will be making my head whirl,
We need to be together,
Cause I can make it last forever,
Do you believe in faith?
Cause if not girl I can wait

I could be your knight in shining armour,
I could be your prince and I could be a charmer,
If I'm not good enough I will try harder
cause I'll be back around like karma,
I just want you to know,
I've never felt like this before,
This all new to me,
I'm certain that you'll be my queen

People call me crazy,
Crazy for you baby,
No one understands our love,
They think it's too complicated

People call me crazy,
But you just think I'm lazy,
If they only knew about us,
It wouldn't be so complicated

Hey there babe I didn't catch your name,
But you caught my eye, I wanna see you again,
We can work it out, you could be mine,
I know we just met, but we're wasting time,
Jawdrop, every time that you're walking through,
Is your sense cinderella cause I got your shoe,
Ok, ok, lets spin this round,
You could be my queen you could wear the crown

Since I layed eyes on your beautiful face,
If you ever had a man I'd wanna be in his place,
Cause you so fine, you're so flawless,
And you're so delicate I will be cautious,
I see you're eyes twinkle when you walk my way,
Life's a game baby girl let's play,
We can travel the globe babe me and you,
If you ain't official then its overdue

People call me crazy,
Crazy for you baby
No one understands our love
They think its too complicated

People call me crazy
But you just say I'm lazy
If they only knew about us
It wouldn't be so complicated

Oh oh oh oh oh oh oh oh
Oh oh oh oh oh oh oh oh
Oh oh oh oh oh oh oh oh
They think its too complicated
Oh oh oh oh oh oh oh oh
Oh oh oh oh oh oh oh oh
Oh oh oh oh oh oh oh oh
They think its too complicated

People call me crazy
Crazy for you baby
No one understands our love
They think it's too complicated

People call me crazy
But you just think I'm lazy
If they only knew about us
It wouldn't be so complicated
