

# Shining Star

## Bars and Melody

You're my shining star  
I searched from near to far  
And all day long you were,  
right here my baby

Yo the girls from every nation,  
your loves not an award  
it's a motivation ,  
we're miles apart,  
it breaks my heart,  
this love's a journey about the star,  
in the night you shine so bright  
darkness falls you give light  
I feel you close but you're so far,  
baby girl you're like a star  
when we speak, there's tears in my eyes,  
when I'm lonely,  
I look to the sky's,  
like three men who were so wise,  
but my love I see your eyes  
They're miles away, yeah, so far  
twinkle, twinkle my little star  
I feel you near, but you're so far  
Baby girl you're shining star

You're my shining star  
I searched from near to far  
And all day long you were  
right here my baby  
You're my superstar  
and girl you own my heart  
and when we're worlds apart  
I'll be right here my baby
