

Every Single Word

Basement

Let me know the truth.
Let me know we're not pretending.
I will wait for you,
Just like I said I would.

Every single word,
Cuts deeper than the first.
You're a broken piece
Of what we used to be.

Please save me.

Let me know the truth.
Let me know we're not pretending.
I will wait for you,
Just like you knew I would.

Please save me from myself.
