

# For You the Moon

Basement

Near  
Far  
I will stay where you are  
I'm not thinking clearly ever  
Skin was made for darker weather

Ask me and I'll try to reach for further sky  
All I need for flight is a feeling from inside

Old  
New  
It remains so true  
Maybe something I desire  
Like the match to start the fire

Ask me and I'll try to reach for further sky  
All I need for flight is a feeling from inside

Ask me and I'll try to reach for further sky  
All I need for flight is a feeling from inside
