

For You the Moon

Basement

Near

Far

I will stay where you are

I'm not thinking clearly ever

Skin was made for darker weather

Ask me and I'll try to reach for further sky

All I need for flight is a feeling from inside

Old

New

It remains so true

Maybe something I desire

Like the match to start the fire

Ask me and I'll try to reach for further sky

All I need for flight is a feeling from inside

Ask me and I'll try to reach for further sky

All I need for flight is a feeling from inside
